

DRAFT PROPOSAL FOR AGENDA AND RATIONALE OF THE WEBINAR

“System & Grid Planning approaches in age of Renewable Energy and Storage growth”

Webinar, June 7th 13.00 – 15.30 (or up to 15.00, depending on agenda and Q&A session), CEST

Organiser: Israel Cigre Committee

Moderator: Alex Levinzon

TIME (minutes)	TOPIC	SPEAKER	notes
5+5	Opening by IEC and Israel Cigre Committee	Alex LEVINZON + IEC management representative	IEC & power sector re-organisation Cigre national activities
5	Introduction, framework and scope	Antonio ILICETO (Cigrè C1 Chair)	
15	Grid planning challenges in Israel	IEC or Israel Cigre Committee	Power sector description, international connections (existing/planned), relations with East Mediterranean area
15	Major trends in Grid Planning & System Development	Antonio ILICETO (Cigrè C1 Chair)	Cigre experience, current activities and trend-spotting
15	Experience of Med-TSO in Planning Studies for addressing the Energy Transition in the Mediterranean	Emmanuel BUE (Med-TSO, Turkish CIGRE Committee)	Touch upon role of East shore and Israel
15	Methodology for grid planning studies: French experience	Alexandre PERIN and Eric MORELLE (French CIGRE Committee)	
15	Italian grid planning, impact of growing RES and Storage	Bruno COVA (Italian CIGRE Committee)	
15	Global interconnected system, exploiting RES, Storage and UHV lines	Gérald SANCHIS (French CIGRE Committee, WG C1.44 Convenor)	Outlook on C1 studies on GEI
10	Growing relevance of regional cooperation for global decarbonisation	Angelo FERRANTE (Med-TSO Secretary General)	Liasing with IEC membership in Med-TSO
Up to 30	Q&A from audience		
5	Closing remarks	Alex LEVINZON (Cigre Israel)
